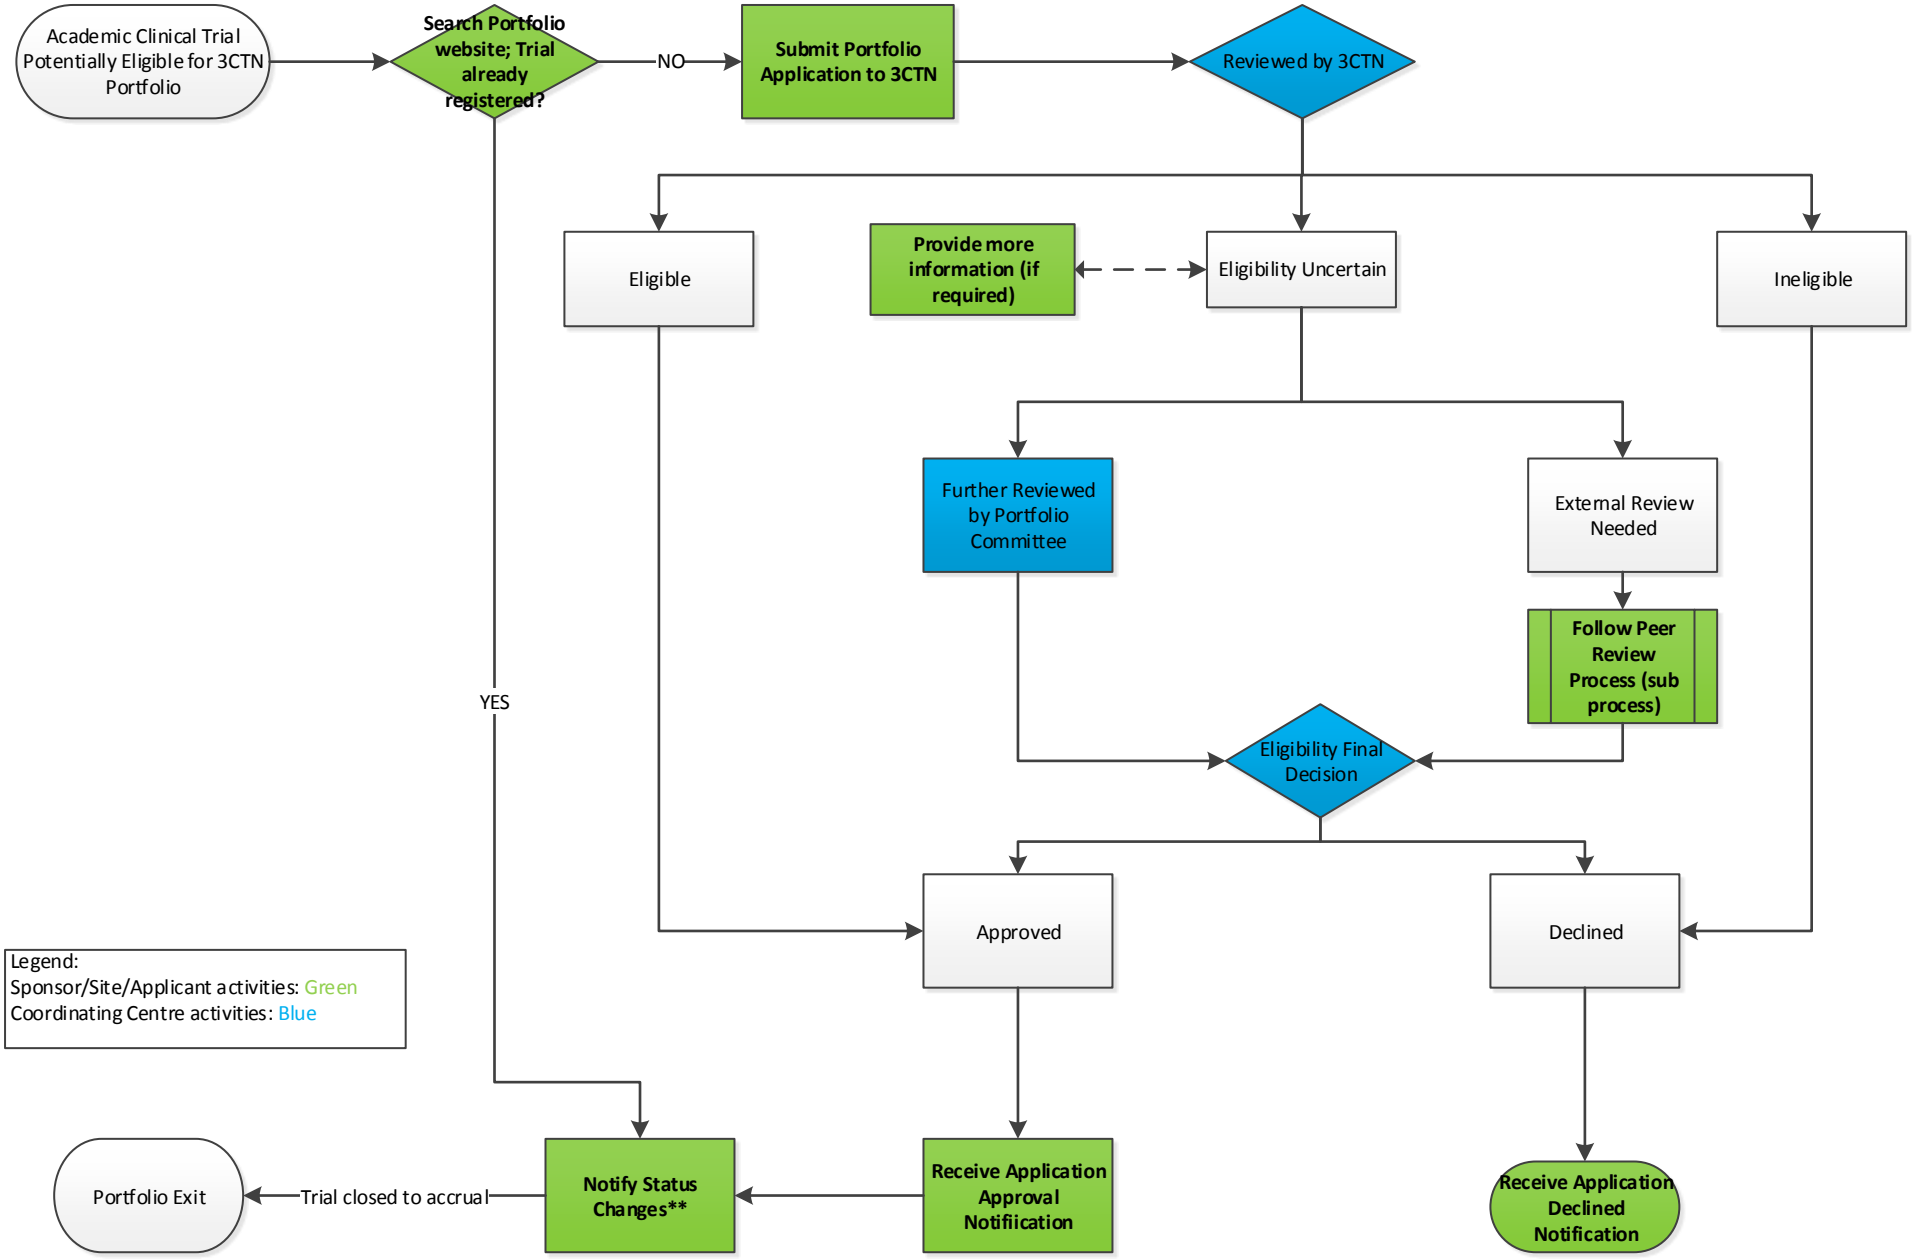
Canadian Cancer Clinical Trials Network

3CTN Portfolio - External Process Map



Notes:

* 3CTN may receive new trial notification from many sources such as the sites, the sponsor or a co-op trial group. In order to avoid duplication, please check the exiting 3CTN public portfolio before making a submission. If already submitted by other sites, please update your site status changes if any.
* *Large co-op trial groups may set up auto notification with 3CTN.
