Section A: Patient Access and Recruitment to the 3CTN Portfolio Trials

Patient Recruitment at All Network Sites

Objective: To improve patient access to academic clinical trials and improve patient recruitment by greater than 75% within four years.

Notes:

- 918 patients were recruited to Portfolio trials in Quarter 3 to bring the year to date total to 2630 patients. Y7 target is to achieve 65% above pre-3CTN baseline which would be 3917 patients recruited.
- Overall, ~26% of Adult Sites (11 out of 42) are on track to meet their Y7 target.
- 58 patients were recruited to Pediatric cancer centres in Y7 so far with ~29% (4/14) Pediatric cancer centres on track to reach their baseline recruitment.
- * 1 centre in the Atlantic region did not report in Y7.
- ** 1 centre in Quebec did not report in Y7Q3.
- *** Pediatric progress to pre-3CTN baseline recruitment is shown. 3 Pediatric sites are on track to exceed their pre-3CTN baseline by end of Y7.

¹ From application received to approve/decline the application for period, Jan 13, 2015 to March 24, 2021.

² Counts are based on the completed applications in that calendar year, e.g. for an application submitted for review in 2019 but completed the review process in 2020, the FPR time will be used for the 2020 calculation.

³ FPR process time is from the start date of peer review (i.e. site agreed to pursue peer review) to the date the last reviewer package is submitted to 3CTN (completed trials only).
